EUROGEO's contribution to European geography and education
Rafael de Miguel González

Table 13: Learning lines and geographical inquiry process (De Miguel, 2016)

	<i>Zwartjes</i>	<i>Roberts</i>	<i>Kerski</i>	<i>Araya, Souto and Herrera</i>
Level 1	Perceiving	Creating a need to know	Asking geographical questions	Perceiving geographical environment
Level 2	Analyzing	Using geographical sources as evidence	Acquiring geographical resources	Analyzing geographical environment
Level 3	Structuring	Making sense of geographical information	Exploring geographical data	Interpreting geographical environment
Level 4	Applying	Reflecting on learning	Analyzing geographical information	Acting on geographical environment
Level 5			Acting on geographical knowledge	

Presentación

¿Qué es ArcGIS Online?

Le presentamos un atlas elaborado por profesores de Geografía, pensado como un recurso didáctico orientado a incorporar las tecnologías de los Sistemas de Información Geográfica (SIG) en la educación con el fin de mejorar los aprendizajes de los alumnos, especialmente en Geografía.

Hemos utilizado el software de ArcGIS Online, una herramienta muy útil para ver, construir o trabajar mapas. No es necesario saber nada de esas tecnologías para trabajar con este atlas. Los mapas están elaborados y son muy sencillos de manejar.

La mayor parte de ellos se basan en representar, en forma de capas, varias informaciones para analizarlas, encontrar relaciones entre ellas, buscar causalidades, etc.

Por último, señalar que hay mapas para todos los niveles de Educación Secundaria: algunos se orientan a los primeros cursos de ESO, otros a los segundos cursos, y otros a bachillerato. Deben ser los profesores los que determinen cuáles son más adecuados para sus alumnos.

Si recorre el menú de la izquierda encontrará estas secciones, desde las que acceder directamente a los mapas:

1. Instrucciones de manejo
2. Cartografía, espacio y didáctica
3. Medio físico y problemas medioambientales
4. Producción y patrimonio
5. Economía y territorio

'24/7/365 @Learning'

Can education organizations take advantage of the potential offered by the Cloud? What prevents innovative leadership from pushing for change? What barriers are there to implementing the use of the Cloud in education? Working Group 1 (WG 1) ...

Are you an innovative teacher? What does that mean? What's the role of the teachers in education today and in the future? Will coaching and providing a useful learning environment for students be more important? How will you help students making their own learning path and finding out different learning styles? ...

i-Learner

Overview

The most difficult aspect in developing and applying ICT in any endeavour is the ability to evaluate mid – to long-term future perspectives. WG4 will seek to evaluate such future developments as they relate to education and cloud technology. In other words examine "Future scenarios for Education on the Cloud". ...

Using the Cloud makes the potential of personalised learning a reality. But what exactly do we mean by 'personalised learning'? Is it individualised learning, independent learning, self-organized learning or what? How do we fit personalised learning inside existing formal and non-formal education? If it improves motivation for learning, what about the effectiveness of learning? ...

EUROGEO, GEO-PROJECTS AND INNOVATION IN EDUCATION

- ✓ **GEOGRAPHY HIGHER EDUCATION:** HERODOT, MYGEO, GEOLAND...
- ✓ **GEOGRAPHY SCHOOL EDUCATION:** SPACIT, I- GUESS, DIGITAL-EARTH.EU, SCHOOL ON THE CLOUD, GI-LEARNER, GI-PEDAGOGY, D₃, GEOCAPABILITIES, EVALUE, BIOMAPS, V-GLOBAL, GEODEM...
- ✓ **GEOGRAPHY FOR EMPLOYABILITY, VOCATIONAL TRAINING, ADULT EDUCATION, NON-FORMAL EDUCATION:** GEOSKILLS+, YOUTHMETRE, GO- DIGITAL, SEED...

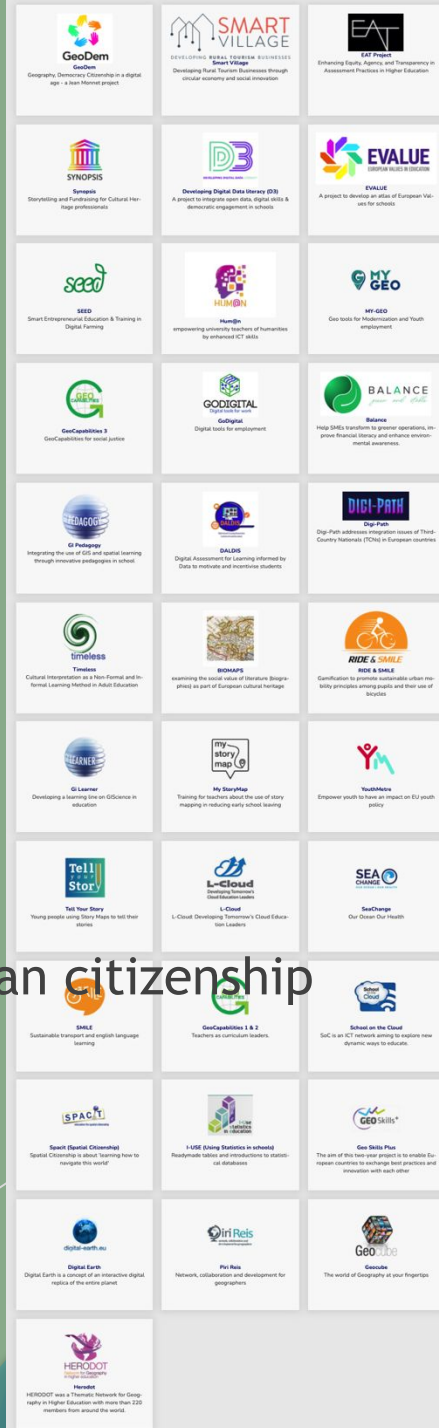

- ✓ **INTERNATIONAL AND EUROPEAN EDUCATION:** EURO.GEO, HERODOT, GEODEM, EVALUE.
- ✓ **DIGITAL GEOGRAPHY EDUCATION AND GEOSPATIAL EDUCATION:** IGUESS, DIGITAL-EARTH.EU, I-USE, MY STORY MAP, SCHOOL ON THE CLOUD, L-CLOUD, D₃, GO- DIGITAL, BIOMAPS, HUMAN, V-GLOBAL, MYGEO.
- ✓ **SPATIAL THINKING:** GI-LEARNER, GI PEDAGOGY.
- ✓ **POWERFUL GEOGRAPHY:** GEOCAPABILITES 1, 2 & 3, EAT.
- ✓ **SPATIAL CITIZENSHIP, EMPOWERMENT:** SPACIT, YOUTHMETRE,
- ✓ **GEOGRAPHICAL EDUCATION FOR SUSTAINABLE DEVELOPMENT:** SEACHANGE, SEED, RIDE&SMILE, ONLIFE, GEOLAND, SMART VILLAGE, TEACHING THE FUTURE.

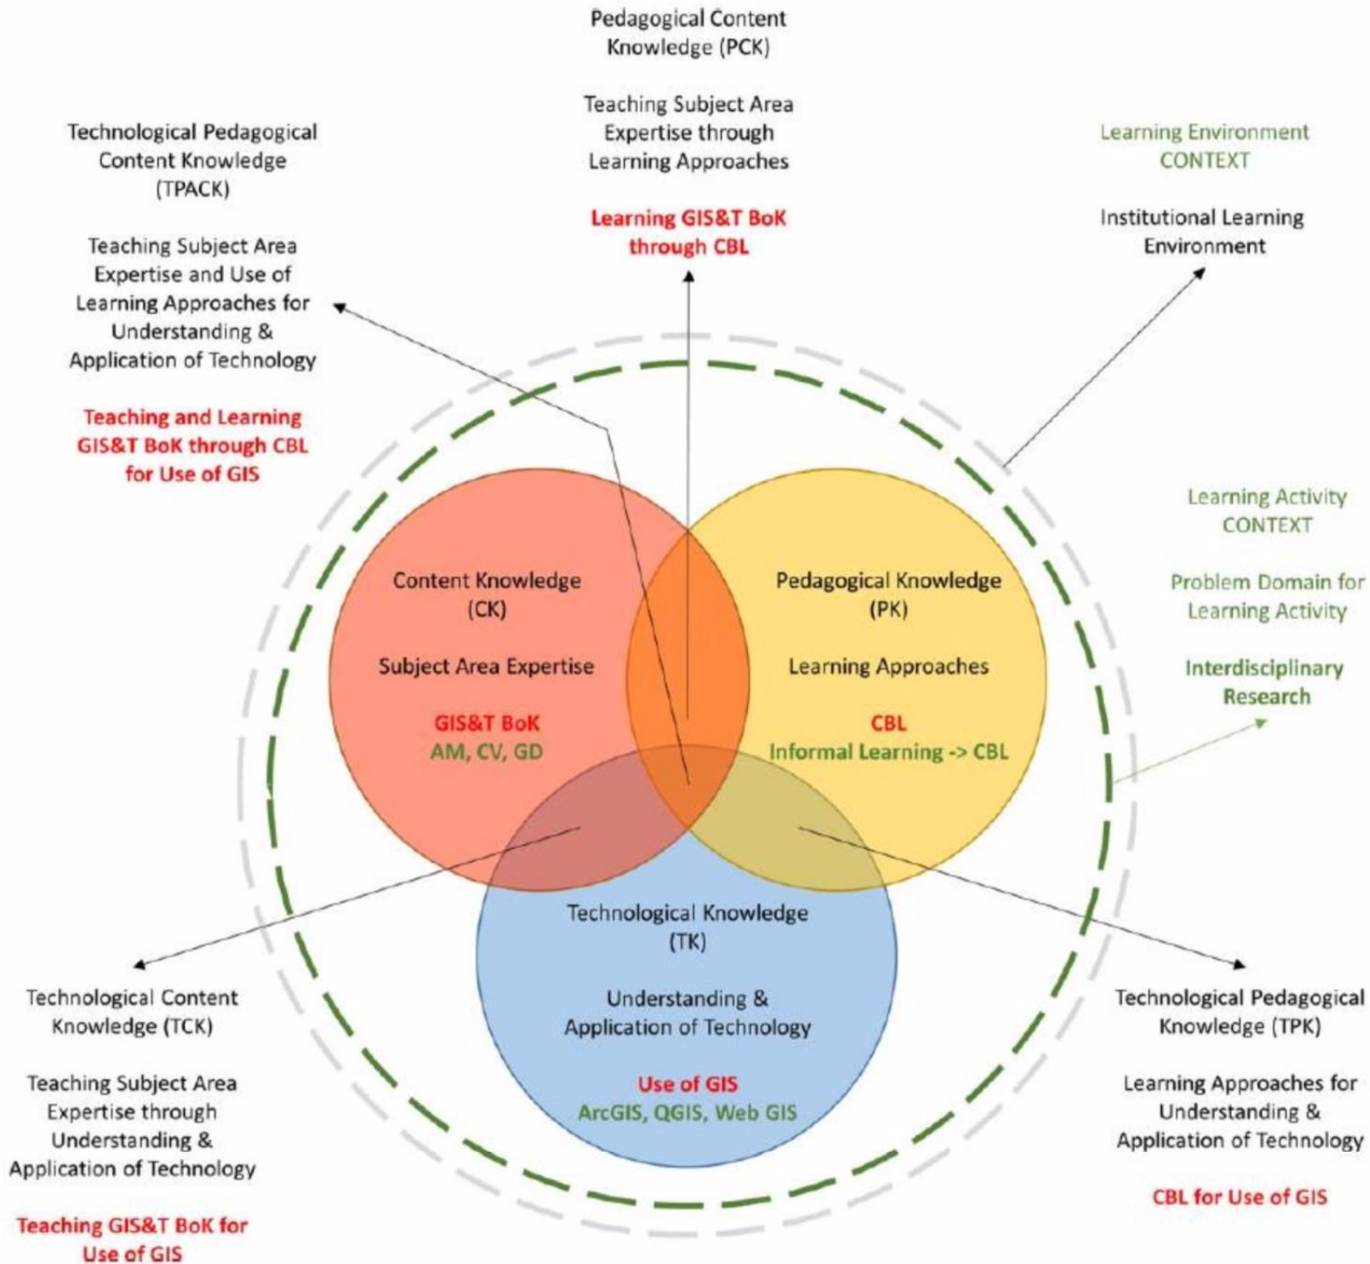

Which competence fits better for different education level / topic?
